Less VLOOKUP is one of the most popular, useful functions in Excel, but it's hard to remember the formula if you don't use it that often.

### **Quick Reference Card: VLOOKUP refresher - Office Support**

Excel automatically updates that formula in reference to the new cell location, making it relative to its location. An absolute cell reference always refers to the same cell regardless of where the formula is copied. An absolute cell address contains a \$ before the column and a \$ before the row indicator. A cell address can also be part ...
