Pre-installed software (also known as bundled software) is software already installed and licensed on a computer or smartphone bought from an original equipment manufacturer (OEM). The operating system is usually pre-installed, but because it is a general requirement, this term is used for additional software apart from the bare necessary amount, usually from other sources (or the operating ...

It's possible that your best self-defense weapons against a home invader will be your legs and hands. If there is an escape route, take it. Use your legs to get out as quickly as possible and use your hands to knock things over behind you to slow down or perhaps trip the attacker, especially if it's dark.
