Management (or managing) is the administration of an organization, whether it is a business, a not-
for-profit organization, or government body. Management includes the activities of setting the
strategy of an organization and coordinating the efforts of its employees (or of volunteers) to
accomplish its objectives through the application of available resources, such as financial, natural ...

Microeconomics (from Greek prefix mikro-meaning "small" + economics) is a branch of economics
that studies the behaviour of individuals and firms in making decisions regarding the allocation of
scarce resources and the interactions among these individuals and firms.. One goal of
microeconomics is to analyze the market mechanisms that establish relative prices among goods
and services and ...

Solar energy represents our largest source of renewable energy supply. Effective solar irradiance reaching the earth's surface ranges from about 0.06 kW/m² at the highest latitudes to 0.25 kW/m² at low latitudes. Fig. 1 compares the technically feasible potential of different renewable energy options using the present conversion efficiencies of available technologies.
