Master Scheduling/MRP/SCP Materials requirements planning, referred to by the initials MRP, is a technique which assists a company in the detailed planning of its production. Recall here that the master production schedule sets out an aggregate plan for production.

Master Scheduling/MRP/SCP | OracleUG

Oracle Master Scheduling/MRP and Supply Chain Planning assumes infinite capacity is available to meet the material requirements plan. However, you can use capacity planning to verify that sufficient capacity exists to support your material plan.

Overview of Material Requirements Planning (MRP ... - Oracle

Select the option that Oracle Master Scheduling/MRP and Oracle Supply Chain Planning uses to decide when to plan the item Not Planned: The item does not require long-term planning of material requirements. Choose this option for high volume and/or low cost items that do not warrant the administrative overhead of MRP; typically dependent demand items.

Oracle Financials Handbook: Planning Method

With a shrinkage rate of .2 (20%), Oracle Master Scheduling/MRP and Supply Chain Planning assumes you lose 20% of any current discrete jobs and 20% of any suggested planned orders. In this example, since you have a discrete job for 60, assume you lose 20% of that discrete job, or 60 times 20%, or 12 units. The net supply from the discrete job ...
