Introduction Documentation in the health record is an integral part of safe and effective nursing practice. Clear, comprehensive and accurate documentation is a judgment and critical thinking used in professional practice and provides an account of nursing's unique contribution to health care.

### **PowerPoint Presentation**

FOCUS. Targeted design for the proficient, ethical nurse. Not designed to be everything to everyone. The new documentation is being designed for use by proficient, ethical nurses so we will be challenging old thinking that often resulted in added documentation to address performance issues of very small numbers of low performers.

\* \* \* CNO We have a track record of successfully changing nursing documentation - HED, AdminRx, and OPC implementations - but we keep adding to the documentation burden without taking anything away. We have adopted a new Documentation Framework that we are starting now to implement. Less of a technical change, more of a practice change.
