Teaching math with art is an excellent strategy. The connection between the two is often overlooked in articles about teaching math, but the truth is that using art in math significantly improves retention of key concepts and vocabulary. Once you see the relationship between the two, you will no doubt begin to see opportunities everywhere to use art in your math classroom.

Chase Orton asked all of us, "What is your professional New Year's resolution? I said that I wanted to stay skilled as a math teacher. As much as I'd like to pretend I've still got it in spite of my years outside of the classroom, I know there aren't any shortcuts here: I need to do more math and I need to do more teaching. I have plans for both halves of that goal.

XtraMath® helps students transition from counting or calculating the basic math facts to recalling them. Quickly recalling math facts, instead of calculating them, frees up mental resources for higher-level operations. XtraMath's timed activities encourage students to answer questions as quickly as possible.

### **XtraMath**

Math is many students' most hated subject in school, the cause of untold nightmares and countless "I can't evens." And inevitably when dealing with a subject so abstract to their daily lives, many students will stand up and in a clear, precise voice bellow, "What will we ever use this for?"
