Honesty On each exam day I am going to give you two examinations, one in chemistry and one in honesty. I hope you will pass them both, but if you must fail one, let it be chemistry, for there are many good people in this world today who cannot pass an examination in chemistry, but there are no good people in the world who cannot pass an examination in honesty.

Does an atom look more like a solar system or a cloud? Learn how the early atomic theory has evolved into the modern atomic theory and changed the way science views the atom.

Modern Atomic Theory: Electron Clouds, Schrodinger ...

The following is a list of people who are considered a "father" or "mother" (or "founding father" or "founding mother") of a scientific field. Such people are generally regarded to have made the first significant contributions to and/or delineation of that field; they may also be seen as "a" rather than "the" father or mother of the field. Debate over who merits the title can be perennial.

Chemistry - Bored of Studies

During the seventeenth and especially eighteenth centuries, driven both by a desire to understand nature and a quest to make balloons in which they could fly (H_2), a number of scientists established the relationships between the macroscopic physical properties of gases, that is, pressure, volume, temperature, and amount of gas. Although their measurements were not precise by today's standards ...
