In recent years, web application security has become increasingly important, especially after web application attacks ranked as the most common reason for breaches, as reported in the Verizon Data Breach Investigations Report.

Web Application Firewall 101 - Learn All About WAFs

Differences between Web Site Projects (WSP) and Web Application Projects (WAP) are highlighted in blogs such as this one. Based on that, if you feel a WAP would be better for your particular needs than a WSP, but have already created a WSP, you may be asking yourself, "Can I convert my WSP into a WAP, without starting from scratch?".
