## **How To Call a Java Stored Procedure In Oracle 10gR2 ...**

A Java Stored Procedure is a procedure coded in Java (as opposed to PL/SQL) and stored in the Oracle database. Java Stored procedures are executed by the database JVM in database memory space. Java Stored Procedures can be developed in JDBC or SQLJ. Interfacing between PL/SQL and Java are extremely easy.

## **Frequently asked questions: Oracle JVM and Java Stored ...**

I have a stored procedure written in java in an Oracle 10g db. This sp takes a java.lang.String as input, creates a file on disk and writes the string contents to it and inserts the filename (plus some other data) in a table in the database and returns the newly generated primary key (as a java.lang.Integer).

## **Pass large amounts of text to a stored procedure written ...**

Utilizing Java Stored Procedures. You can run Java stored procedures in the same way as PL/SQL stored procedures. Normally, in Oracle Database, a call to a Java stored procedure is a result of database manipulation, because the call is usually the result of a trigger or SQL data manipulation language (DML) call.

## **Calling Java Methods in Oracle Database**

Oracle stored procedures Get Started. Bring yourself up to speed with our introductory content. stored procedure. A stored procedure is a group of statements with a specific name, which are

stored inside a database, such as MySQL or Oracle.

### Oracle stored procedures news, help and research ...

Assuming that the overhead of running the stored procedure won't be a problem, I would not hesitate to use Java for this. Oracle first implemented Java stored procedures in Oracle 8i (8.1.5). That was released in February 1999, so the feature has been out for a dozen years and has had several major releases to get bugs fixed.

### Java stored procedures in Oracle, a good idea? - Software ...

According to the marketing literature, Oracle 9i Java Stored Procs support returning multiple rows. Previously this was only possible from PL/SQL stored procs. For the life of me, I can't find ANY reference in the Oracle documentation, on Internet news groups, or on the Oracle website that actually documents how this is done!!!
