Highlights Social media use was examined in 108 adults with autism spectrum disorders (ASD). The majority of the sample (79.6%) used social networking sites (SNS). The most common reason for SNS use was social connection. Adults with ASD who used SNS were more likely to have close friends. Social media use alone was not associated with decreased loneliness.

Electronics. In electronics, cutoff frequency or corner frequency is the frequency either above or below which the power output of a circuit, such as a line, amplifier, or electronic filter has fallen to a given proportion of the power in the passband. Most frequently this proportion is one half the passband power, also referred to as the 3 dB point since a fall of 3 dB corresponds ...
