**Oracle Activity Guide**

An activity guide template provides a reusable definition of the important aspects of an activity guide: its properties, participants, contextual data, list of action items and to whom they are assigned, and so on. Then, at run time, an activity guide instance can be created from the definitions stored in the template. The instance will be ...

**Understanding Activity Guides - Oracle**

Activity guide templates provide a mechanism for defining the properties, security, action items, contextual data, and other options for activity guides as a onetime activity. Then, individual activity guide instances can be generated from these reusable templates. Figure 1: Example of an activity guide in Fluid Activity Guide Terminology
