### **Nervous Conditions Study Guide | GradeSaver**

Nervous System Diseases is a guide to diseases of the neurological system, providing an in depth introduction that is understandable even if you do not have a background in science or medicine.

### **Nervous System Diseases**

The nervous system has two main parts: The central nervous system is made up of the brain and spinal cord. The peripheral nervous system is made up of nerves that branch off from the spinal cord and extend to all parts of the body. The nervous system transmits signals between the brain and the rest of the body, including internal organs. In this way, the nervous system's activity controls ...
