2 Day + Java Developer's Guide | Oracle Documentation

Oracle Application Express (APEX) is a rapid Web application development tool for Oracle Database. With only a Web browser, users with limited programming experience can develop scalable, secure, and efficient Web applications. Deployment requires only an Oracle Database running APEX.

Oracle Database Online Documentation 11g Release 2 (11.2)

Oracle Database 10 g introduces new features for calling Java stored procedures and functions. In releases prior to Oracle Database 10 g, calling Java stored procedures and functions from a database client required JDBC calls to the associated PL/SQL wrappers. Each wrapper had to be manually published with a SQL signature and a Java implementation.

Calling Java Methods in Oracle Database - Stanford University

2 Java Applications on Oracle Database. Oracle Database runs standard Java applications. However, the Java-integrated Oracle Database environment is different from a typical Java development environment. This chapter describes the basic differences for writing, installing, and deploying Java applications within Oracle Database.
