The Credé maneuver is a technique used to void urine from the bladder of an individual who, due to disease, cannot do so without aid. The Credé maneuver is executed by exerting manual pressure on the abdomen at the location of the bladder, just below the navel. Patients can learn to perform the maneuver on themselves as it is simple to do. The method is also used in obstetrics to aid the body ...

Sometimes as healthcare professionals, we are trained to look at the numbers. We run tests and examine the heck out of lab values and vital signs to discern how our patient is doing today. This is all very important, and ultimately it allows physicians to assist in determining what the patient's official diagnosis is, or help nurses to paint a picture of a patient's condition, but it doesn't ...
