I bought this for a graduate level introductory optics course despite already having the 4th edition from an undergraduate course. I struggled with the necessity of buying the new edition at first but have no regrets now. The 4th edition had hardly any example problems throughout the entire text. The author remedied this in the 5th edition.

To be vitally human there are a few authors one must read - Shakespeare, Plato, Rousseau, Alan Bloom, and Eugene Hecht. With only limited exaggeration - notable among man's achievements is Hecht's new 4th edition of Optics. The first edition was the central (and only) text assigned in junior year optics for physics majors at many universities.
