How to determine if a point is inside a polygon using ...

Original User: vangelo There's a big difference between Oracle Spatial and SDO_GEOMETRY. Oracle Spatial uses SDO_GEOMETRY, but SDO_GEOMETRY is not part of Spatial. The SDO type is installed with Intermedia, which is part of the base 11g install. I never install Oracle Spatial (which is more of an ArcGIS Server competitor) and can still use SDO_GEOMETRY when needed.

Uninstalling Oracle Spatial | GeoNet

Oracle Spatial is a spatial cartridge for the Oracle database. Remember that all Oracle databases come with Locator, which has less features than Oracle Spatial. The differences between Locator and Spatial can be found in the Oracle Spatial FAQ. You can also see the original OracleSpatial wiki page that this document was based on.
