DESIGN ELEMENT TOLERANCES - cityofithaca.org

The NYSDOT Highway Design Manual Chapter 5 and Appendix 5A provide information regarding the placement of a variety of driveway types. With regard to residential driveways, a recommended distance from an intersection's closest edge of travel lane is equal to 2x's the width of the driveway plus 15 feet (2W + 15 feet; W =width of driveway).

How close can a residential driveway be to an intersection?

7.1.3 NYSDOT Highway Design Manual Chapter 25 - Traffic Calming In addition to Chapter 18, the NYSDOT Highway Design Manual contains a chapter on traffic calming. This chapter includes a wide range of facility design guidelines for balancing the needs of pedestrians, bicyclists and motorists. The introduction to the chapter contains the following
