Oracle Beginners - Beginner's Guide For Oracle Database

A wise man* once said, an expert is someone who uses big words and acronyms where simple phrases would do just as nicely. So stand back and listen to this: Database, Relational Database, DBMS, RDBMS, SQL, Sub-queries, normalisation. So now that I've established my credentials by bamboozling you with arcane words and capital letters,

This book tries to cover everything about Oracle 8i all in one shot. There is so much to learn about Oracle that such a book would be immense. Even though it has "A Beginner's Guide" in the title, there is not enough substance to teach a new user nor is there enough to satisfy an experienced user. So it befits the title "Jack of all trades.
