Several of the sections link to separate articles that give more details about the functionality. 12c Release 1 (12.1)

SecureFiles : Large Object (LOB) Enhancements in Oracle ...

Storage of SecureFiles. This section summarizes LOB storage characteristics used to design tables with LOB column types. Beginning with Release 11.1, a new LOB storage paradigm is used by the database when the storage keyword SECUREFILE appears in the CREATE TABLE statement. The old storage paradigm is in effect if the keyword SECUREFILE is not used, or if the keyword BASICFILE is used.

4 Using Oracle SecureFiles - sqltech.cl

[1]Oracle® Database SecureFiles and Large Objects Developer's Guide 12c Release 1 (12.1) E17605-11 August 2014

Oracle Database SecureFiles and Large Objects Developer's ...

Database File System Links are references from SecureFiles to data stored outside of the segment in which the SecureFile resides. The path name given must reference a path available through the Oracle Database File System (DBFS) Content API.

Using Oracle SecureFiles

SecureFiles compression automatically detects if the data is compressible and only spends CPU cycles if compression yields gains. Oracle Text indexes can be installed on compressed SecureFiles LOBs. This is a major benefit of storing unstructured data inside the Oracle database as opposed to compressed files in a filesystem.

Oracle Database 11g: The Top New Features for DBAs and ...

With the introduction of SecureFiles, Oracle Database 11g dramatically expands the storage capabilities for Large Objects (LOBs) within an Oracle database. This article – the first in a two-part series – discusses how LOBs have expanded their domain within databases over the past decade,

looks at several potential future uses for LOBs, and introduces the new SecureFile LOB object model.

SecureFiles in Oracle Database 11g — DatabaseJournal.com

When creating and designing your database's LOB objects, remember to carefully review the Oracle Database SecureFiles and Large Objects Developer's Guide (Oracle, 2016) especially Chapter 14, "Performance Guidelines." This guide updates you on latest recommendations for creating your LOBs depending on what types of data will reside ...

Fixing a LOB data type Problem in Oracle database tables

Oracle Datapump supports SecureFiles as Default. Oracle 12c stores LOBs as SecureFiles per default. In the case where a table or a database using BasicFiles was exported using EXPDP, if you want to import the dump file into a 12c database, Data Pump will try to recreate LOBs exactly as they were stored in the old database.

Oracle Database 12c: SecureFiles enhancements - Blog dbi ...

Oracle SecureFiles were introduced in Oracle Database 11g Release 2 to enable optimized storage of large objects and enhanced performance. SecureFiles are re-engineered LOB storage architecture that is designed to leverage the joint capabilities of an Oracle Database and a file system.
